Relevant Experience

Full Stack Engineer · Radity

Sep 2023 — Present

- Build, style, and ship more than 4 high-quality insurance portals for a diverse array of clients using technologies such as **React**, **Next.js**, **Redux**, **JavaScript**, **TypeScript**, **Material UI**, **Figma**, and more.
- Work alongside product & project managers, designers, and other engineers to transform creative concepts into refined digital experiences at an agile (2 week) cadence.
- Redesigned Radity's website and developed it with WordPress which resulted in a 40% increase in user engagement.

Full Stack Engineer · DT Cloud

Apr 2023 — Sep 2023

- Developed high-end cloud services, IaaS and PaaS software solutions using technologies such as **React**, **JavaScript**, **TypeScript**, **Chakra UI**, **Redux**, **Figma**, and more.
- Implemented client-requested features, resulting in a 30% boost in user satisfaction and retention.
- Contributed to the development of end-to-end tests with Cypress, leading to a 20% decrease in the occurrence of errors and system failures.

OOP & Java Mentor · Ankara Science University

Mar 2022 — Jun 2022

- Guided and tutored **8 computer engineering students** at Ankara Science University in OOP and Java, resulting in all students passing with an average grade of **BA**.
- Through detailed explanations and relatable examples, helped students grasp the fundamental concepts of Object-Oriented Programming (OOP) and the Java programming language.

Organizations

Founder & Web Dev Mentor · Sinbad DigiBox

Feb 2022 — Jun 2024

- Founded an organization that trains college students in game development, embedded software, AI, and web development.
- Successfully provided invaluable guidance and mentorship in web development technologies to engineering students.
